

■ Netility Operation and Setting

Netility main pages divided into 2 sections:

1. Online NetAgentA List
2. Function Selection

1.1 Online NetAgentA List

When open up Netility , it automatically searches all the available online NetAgentA within the network with its serial number, IP address, MAC address. Double click on the specific NetAgentA with valid IP address, it will direct to the NetAgentA's webpage. (List refreshes automatically every 2 minutes)

The screenshot shows the Netility application window. The interface includes a sidebar with buttons for 'Launch Web User Interface', 'Network Settings', 'Firmware Upgrade', 'About', and 'Refresh List'. The main area displays the 'Netility' logo and the text 'Search for device's LAN IP'. Below this is a table listing devices with columns for Serial Number, MAC Address, and IP Address. The table contains 10 rows of data. The row with Serial Number 3927225097 and IP Address 192.168.0.224 is highlighted in red. A blue arrow points from this row to a second screenshot of the same application. In the second screenshot, a yellow arrow points to the same row, and a callout box contains the text 'Double click to login to the webpage'. Below the table in the second screenshot, the hardware version is listed as 'HBV506', the firmware version as '3.5.BY506', and the MAC address as '00-03-EA-14-B3-09'.
